General Comments

From 0600-0700, I prepared for cat walk field data collection, waited for bolt tensioning to begin, monitored contractor set up for the south cable and north side rod tensioning.

From 0700-1200, no rod tensioning was done, I monitored bolt tensioning on PP 56 S - PP 72 S for 5 hours.

From 1200-1830, I worked in the field office doing email diary, data verifying, general SAS field office diaries, time sheet, reading and writing email, copying data sheets.
